WORKSHOPS

Saturday September 9

12 - 1:30 pm - Tango Workshop #1: Musicality and Phrasing. In this class we will look at the global structure of tango music and how it is broken down into smaller segments and phrases. This class is great for understanding how the dance can be punctuated in a way that speaks to the partner.

2 - 3:30 pm - Tango Workshop #2: Liberate your tango from sequences. In this class we'll discuss the structure of tango as we understand it, and break it down into a modular approach so that dancers are able to adapt their dancing at a moment's notice (both leaders and followers!) and understand how to create their own sequences on the fly.

Sunday September 10

12 - 1:30 - Vals Workshop #1: Fundamental Vals Musicality. We will look at how to hear and place accents on the different beats of vals music. The focus will be on proper musicality, not on sequences.

2 - 3:30 - Vals Workshop #2: Flowing Circles for Vals. We will learn some basic sequences emphasizing circularity and flow that work well in vals - sequences that all dancers should be aware of when dancing vals.

Place: Studio @, 202 Tank Farm Road, Suite C, San Luis Obispo (next to Kennedy Fitness Center)

Fees: First class \$30, second class \$25, third class \$20, fourth class \$15. All four workshops \$90.

Cash or check at the door or mail to our home address: Adrian Bray, 4375 Poinsettia St, SLO, CA 93401
